SOURCE ID: 21-155-00021

SOURCE A.I. #: 2896

ACTIVITY ID: APE20060001

**SOURCE DESCRIPTION:**

On November 02, 2006 the Division received an application from Curtis - Maruyasu America, Inc. for the renewal of their permit F-01-029 (Revision 2) to operate a fuel and brake tubing manufacturing facility.

Curtis-Maruyasu America, Inc. is an existing source located in Lebanon. This source manufactures fuel and brake tubing. The source has a three tubing lines (One DWT line, one SWT line and one Nylon coated tubing line).

The source requested permit limits of less than 90 tons per year of volatile organic compounds (VOC), 9.0 tons per year of individual hazardous air pollutants (HAP), and 22.5 tons per year of combined HAPs to preclude the applicability of Title V.

**PUBLIC, EPA, AND AFFECTED STATE REVIEW:**

On April 4, 2007, the public notice on availability of the draft permit and supporting material for comments by persons affected by the plant was published in *Lebanon Enterprise* in Lebanon, Kentucky. In addition, notification of the issuance of the draft permit was sent to the U.S. EPA on April 5, 2007 via e-mail. No states are affected by this permit action. The public comment period expired 30 days from the date of publication. No comments were received during this period. The permit is now being issued final.
